You may park in the short term parking/visitor parking immediately outside of the front entrance, or in the guest parking on the left side. There is ample parking.

On subsequent days, parents may drop their children off at the front door, where they will be escorted to class by Mason staff. Participants should plan to arrive at the site or drop-off point no later than 9:00AM each morning. You may begin arriving at 8:30AM.

PICK-UP

VERY IMPORTANT DAILY PARTICIPANT PICK-UP PROCEDURES:

This program ends at **4:00PM** each day. ***We ask that parents park in the visitor spots or the guest lot to pick up their child directly from class.***

In order to pick up your child, you must park and come into the building. In Suite 100, each room will have a sign outside marking where each class is taking place. When the door for the classroom is opened, the class has ended and you may sign them out by initialing on the teacher's sign out sheet. Then, you will be allowed into the room to see your child's work and escort them out of the building.

NOTE: Students will only be allowed out of the building by themselves if they have either previously indicated that they will be driving themselves or if they have a note from a parent saying they are allowed to drive themselves. Otherwise, **parents MUST come into the building to sign out their child!**

Late pick-up: Any pick-up that occurs after 30 minutes from the program end time is considered a "late pick-up." A \$10 fee for late pick-up will be assessed every 15 minutes starting at 4:30PM payable by the next morning's check.

Participants **MUST** check in upon arrival to the Program Location **each day** – as we will call parents after the program begins if a name is not checked on the list. At First Day Check-In, participants will be provided with a program packet and any pre-purchased materials (if applicable). After an initial welcome from the University representative and/or the Program Director and Instructors, participants will be guided on where to go and what to do – your specific Game Design/ Technology course outline and objectives will be explained at that time.
